Serial No.: 10/593,233 (RYU.031)

Docket No.: SH-0066PCTUS

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph [0023] with the following Amended paragraph:

In addition, the edge surface <u>12</u> of the opening of the exhaust hood is curved as shown in Fig. 5A. With this configuration, the non-deposited glass particles are excellently guided to the exhaust hood, and a gas flow is not disturbed. Fig. 5B shows an edge surface <u>12</u> of an opening of a typical exhaust hood, which tends to cause disturbance in a gas flow.
